2. When the **Mobile Reporter** login page displays, tap the **Chrome Menu button** (3 vertical dots top right corner of the screen)

3. Tap **Add to Home screen** from the **Chrome drop down menu**.

4. When the **Add to Home screen page** displays, tap **ADD**.

5. The **Mobile Reporter** icon should now be appearing on your home screen with all of your other app icons. Now whenever you need to check your information you can simply tap the icon and log in.
