

Adding a Mobile Reporter shortcut to your iOS device - iPhone/iPad

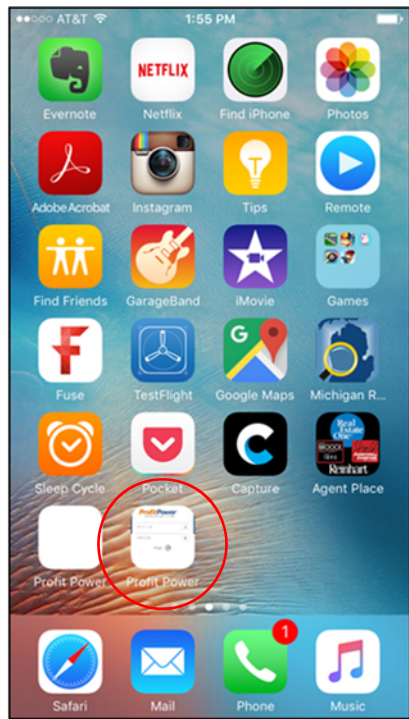

1. Open the **Mobile Reporter** page in your phone or tablet's web browser and tap the **Share** icon at the bottom of the screen

2. When the **Share** menu displays, tap **Add To Home Screen** from the available options.

3. When the **Add to Home** page displays, tap **Add**.

4. The **Mobile Reporter** icon should now appear on your home screen with all of your other app icons and whenever you need to check your information you can simply tap the icon and log in.
